

30-DAY EXECUTIVE PILOT

A clearer view of your next business decision.

Geopolitical research and decision support, shaped around your company's exposure.

₹75,000 / 30 days

Taxes as applicable · Founding price for the first five clients

Who it is for

Indian solar manufacturers and project developers with material China-linked exposure: cells, equipment, components, critical inputs or project eligibility.

What your desk includes

Exposure onboarding. One session to map the suppliers, projects, markets and decisions that matter.

Four weekly briefs. Relevant developments, business implications, scenarios and indicators to watch.

Priority alerts. Material changes flagged within agreed coverage hours.

One bespoke decision memo. A focused assessment of one management question, agreed at onboarding.

Risk dashboard. A structured view of events, company exposure, timeframes and actions.

Executive briefing. A 30-minute end-of-pilot discussion of findings and next actions.

Start with a 20-minute introduction

Share your company, the decision you need to make and your deadline. We will agree the research scope, delivery timetable and commercial terms before starting.
